

PRAMOD SITHARA

Software Engineer | Full Stack Developer

+94 786966129 | pramodsithara9999@gmail.com | [Linkedin](#) | [Github](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven Software Engineer with 2+ years of progressive industry experience in full-stack web and mobile application development. Proficient in Node.js, Express.js, Flask, React.js, and React Native, with a strong track record of delivering scalable, production-ready applications in Agile environments. Holds a Bachelor of ICTs (Hons) from the University of Jaffna (2026).

WORK EXPERIENCE

Circlebook PVT (LTD) | Software Engineer | May 2025 – Current

- Architect and deliver full-stack web and mobile applications using Node.js, Express.js, MongoDB, and React Native, contributing to a 30% improvement in application performance and reliability.
- Engineer and maintain secure, high-performance REST APIs serving multiple client applications, reducing average API response time through optimized query handling and middleware design.
- Lead backend service development using Node.js and Express.js, implementing authentication, authorization, and data validation layers to ensure robust system security.
- Collaborate within cross-functional Agile teams across the full software development lifecycle, including sprint planning, code reviews, deployment pipelines, and technical documentation.

Nova Tech Labs PVT (LTD) | Associate Software Engineer | Dec 2024 – May 2025

- Engineered a JavaScript-based report generation module integrated with dynamic data visualization, reducing manual reporting effort by ~50% and improving data accessibility for stakeholders.
- Expanded and optimized the React report module, refactoring core components to enhance rendering performance and contributing backend API endpoints via Node.js and Express.js.

Codeolima PVT (LTD) | Trainee Software Engineer | Mar 2024 – Sep 2024

- Architected scalable backend systems for an IT consulting web application using Node.js, Express.js, and Flask, enabling seamless integration across 10+ functional modules.
- Designed and implemented RESTful APIs following industry best practices, with comprehensive endpoint testing via Postman and Jest unit test suites achieving high code coverage across critical business logic.

EDUCATION

Bachelor of ICTs (Hons) | University of Jaffna | Graduated 2026

TECHNICAL SKILLS

Frontend: React.js, Next.js, React Native (Expo and Cli), JavaScript, Tailwind CSS

Backend: Node.js, Express.js, FastAPI, Flask, Django, .NET, Spring Boot, Laravel

Languages: JavaScript, Python, Java, PHP, C#, C++

Databases: MongoDB (Mongoose), MySQL, PostgreSQL

Tools & DevOps: Docker, AWS, Git, Postman, Jest, REST APIs

Other: Machine Learning & Deep Learning, Computer Vision (OpenCV / CV2), Industrial Automation (PLC) and IOT

PROJECTS

- U-Fix Web Application** — React.js, Express.js, MongoDB, Node.js — Full-stack service request management platform
- Self Health Care Mobile Application** — React Native (Expo) — Cross-platform personal health tracking mobile app
- Parking Space Recognition System** — Python, OpenCV (CV2) — Real-time computer vision solution for automated parking detection

ADDITIONAL INFORMATION

Work Style: Highly collaborative, self-motivated, and adaptable; experienced in Agile and cross-functional team environments with a strong commitment to code quality and continuous professional development.
